Feet First: Mastering Bernina's Footwork

- In preparation for our final class, where we'll bring all our skills together, you'll have a unique homework assignment each month. These assignments will guide you in working on your final project, integrating elements from every foot we explore in the series. By dedicating time outside of class to your projects, you'll have the opportunity to practice and refine your skills with each foot.
- During our culminating session, our focus will be on fine-tuning techniques, troubleshooting any challenges you may encounter, and ultimately completing our comprehensive project. It will be a celebration of your progress and a testament to the versatility of Bernina feet.
